

Castlight Release Notes

September 2015

- **First time user experience**

First time user experience

Castlight is excited to announce that we've deployed the initial iteration of our first time user experience (FTUX). This enhancement is designed to help newcomers to Castlight understand the platform's value and empower them to get the most out of it.

Key enhancements

- New interstitial greeting users upon their first login
- On the homepage, pulsating "dots" guiding users to:
 - Search
 - Past Care
 - Your Plan Page
- On the first Search Results Page they land upon, they will also see a dot explaining pricing.
