

MARCH 2016 RELEASE NOTES

- Castlight Pulse
- Castlight Mobile
- Castlight Action
- Castlight Medical

Castlight Pulse

Pulse functionality was expanded to include two reports capturing Castlight Mobile usage:

- Mobile visits and visitors
- Mobile visitor comparison

Castlight Mobile

Castlight made several enhancements to the mobile platform in March, including:

- Deep-linking UX improvements:
- Plan Status updates to support collective plans impacted by the ACA
- Expanded rewarding for activities in Castlight Mobile

Castlight Action

- Castlight released a new opportunity for Castlight Action aimed at improving employee access to colon cancer screenings.

Castlight Medical

- Enhanced lab test disambiguation page allowing users to filter by common tests and medical conditions
- Expanded procedure volume quality data
