

MAY 2016 RELEASE NOTES

- Castlight Mobile
- Castlight Action
- Castlight Pulse

Castlight Mobile

- Care Center support
 - Employees now have access to the full functionality of Care Center in Mobile empowering them to manage their providers and courses of treatment wherever they might be
- Support for Quality data (surgical ratings)
 - Castlight Mobile incorporates new surgical quality ratings so employees can understand more than just a physician's cost when deciding on a surgical procedure
- Other new enhancements include improved navigation, an updated global menu, and native app download messaging

Castlight Action

- Program Connect pilot
 - The Program Connect pilot allows Action customers to promote a relevant benefit or program vendor through by email or home page card.
- User Assessments
 - User assessments allow users submit information about their conditions and past treatments, which the Action personalization engine leverages to surface the most relevant recommendations.
- Two new opportunity families
 - Behavioral Health
 - Gaps in Pediatric Preventive Care

Castlight Pulse

- Playbook integration
 - The Castlight Communications Playbook is now accessible through Castlight Pulse, allowing benefits leaders more autonomy when seeking to drive engagement among their employees
