

Our Care Guidance solution helps you build a healthier, more productive workforce

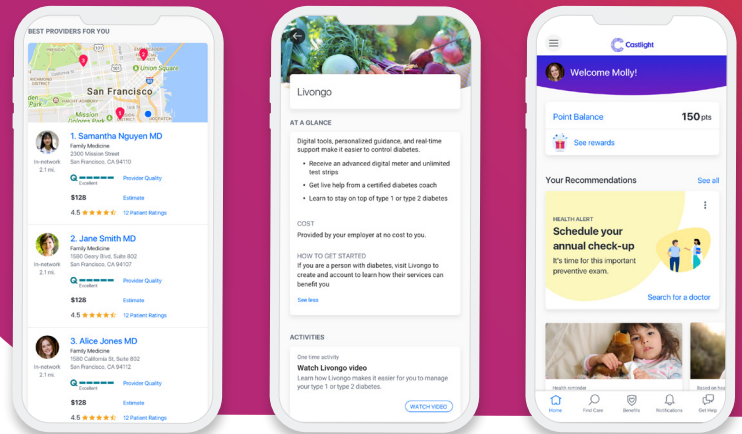

We provide a centralized digital home for all your healthcare needs so your employees and their families can easily connect and engage with the right care and programs at the right time.

Personalized care guidance in one place

Support your employees and their families with timely, relevant guidance connecting them to the right care.

Help them engage with employer-sponsored programs through personalized nudges based on individual clinical needs, health goals, and benefits eligibility.

Digital Home for Health a personalized navigation platform

Right care
Industry leading cost & quality guidance

Right programs
Unparalleled program integrations

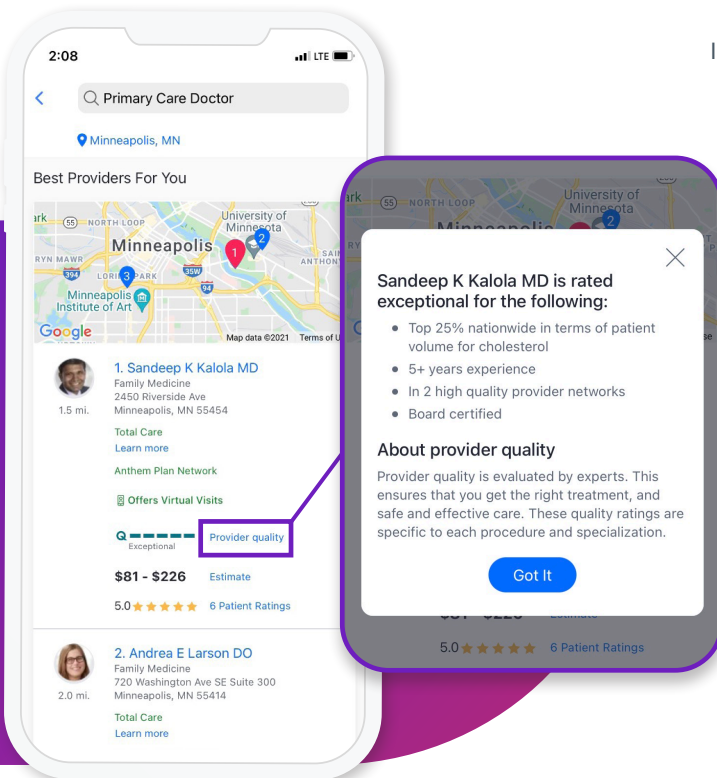

Right time
Data-driven recommendations

Personalized provider recommendations

Connect your people to high-value, in-network medical, dental, and behavioral health providers who have a history of achieving the best possible clinical outcomes.

Provider recommendations are curated to specifically match individual geography, plan coverage, employer-preferred networks, and clinical conditions such as:

- Back Pain
- Behavioral Health
- Cancer
- Cardiovascular
- COPD
- Diabetes
- Musculoskeletal
- Pregnancy

For employees and their family members who are looking for support in finding the right provider for their personal health journey, Castlight can help.

Helping your employees find the right care at the right time

Powered by market-leading intelligence in cost, quality, and clinical outcomes, we match your people to high-quality, cost-efficient providers and best-in-class programs, whether virtual or in-person, to meet their individual clinical needs.

Resulting from over a decade of user research and testing, Castlight displays quality and cost information in a way that enables your employees to easily navigate toward in-network providers that can most effectively address their clinical needs.

Proven Outcomes

We help your members make informed care decisions for better health outcomes, and lower costs.

* Baselines are expected behaviors based on risk-cohorts

Our approach to quality

A Simple, Consumer-Grade Search Experience

Give your employees premium decision support with a personalized care guidance experience. Using an intuitive search bar, your employees will find all the relevant information they need to connect to the right care.

Provider Quality & Cost Transparency

Guide every employee to the highest value care with best-in-class price transparency and proprietary provider quality metrics embedded into the matching algorithms that elevate the best fit providers for each member

Custom Network Integrations

Comprehensively support all the unique aspects of your benefits strategy, from centers of excellence and advanced plan designs to narrow networks and direct contracts
