

Better Together

Drive meaningful, sustained engagement in the right programs with deeply personalized experiences

Quest Diagnostics® is the nation's leading provider of laboratory testing and related population health solutions for employers. Companies leverage clinical insights from Quest Diagnostics to identify acute and chronic disease risks, connect employees to care, and empower better health. Laboratory testing is the first step, and insights from the programs. Quest offers serve as the foundation for continuous improvement in employee health and well-being, along with a reduced healthcare spend.

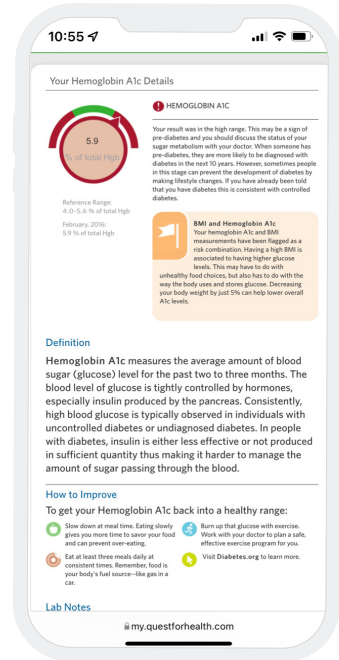

Protect your health with a visit

Ahmad is overdue for his HbA1c screening triggering emails and in-app notifications steering him to Quest Diagnostics to schedule an appointment while still in the Castlight app.

Ahmad

Missing Screening: HbA1c
Diagnosis: Type 2 Diabetes
Dx Code: ICD-10 Code E11

lower lab-related medical spend

when members have access to **Quest Screenings** versus those without

“Following a period of prolonged care deferrals, employers should be laser focused on connecting their people with preventive care, including key diabetes, cholesterol, and cancer screenings. We’re collaborating with Castlight to re-engage and motivate employees to get the screenings they need to help support more favorable long-term health outcomes.”
